Held Over.

T. J. Rudder, the counterfeiter arrested at Midway several weeks ago, was given an examining trial before U. S. Commissioner W. J. Chinn, jr., Tuesday, and was held in the sum of \$1,000 to appear before the grand jury of the June term of the U. S. District Court. Being unable to give bond for the required amount he was remanded to jail.

Still Another Counterfeiter.

The woods seem to be full of the makers of the "queer" in this section, as every day or two a new prisoner is brought before Commissioner Chinn, charged with the offense of counterfeiting. On Tuesday John Maxbury, a negro, was brought here from Lexington by U. S. Deputy Marshal McCarty, charged with making and circulating counterfeit quarters and dimes. Wednesday he was given an examination before Commissioner Chinn and held in \$800 bond to appear at the June term of the U. S. Court, which he failed to give and was sent to jail. He told the Commissioner that he obtained the dies used by him from T. J. Rudder, the counterfeiter arrested at Midway and now in jail awaiting trial, and that he had thrown them in a pond in Goodloetown, a suburb of Lexington.

The Grippe Raging in Alabama.

"La grippe is raging here, and I find Chamberlain's Cough Remedy to be a certain cure for it," says W. G. Johns, of Trimble, Cullman Co., Ala. Mr. Johns ordered a supply of the Remedy to be shipped by express as quickly as possible. There is no question but this Remedy is of great value in the treatment of the grip especially on account of its counteracting any tendency of the disease towards pneumonia. It is also a prompt and certain cure for the cough which usually follows an attack of the grip. 25 and 50 cent bottles for sale by J. W. GAYLE, Druggist. 26-4t.

The Old Original Remedy Leads.

Sick people should not be deceived by pretenders who talk about "Microbi," "germs," "baccilli," &c., to sell their preparations, thus preventing people from buying the original tested medicine. "Radam's Microbe Killer" is what you need. It is now, and for years has been, making more cures than all other remedies combined. Read their advertisement in this paper. Don't be deceived.

Perpetual Motion.

John Snowden, residing near Waco, Madison county, is in a high state of ecstasy over the probable perfection which has never been accomplished by man, "perpetual motion." Four years ago he commenced his plans, and made the beginning of what he now believes to be a success. He has been working patiently and faithfully ever since, never tiring, but persevering and endeavoring to obtain the reward which he claims will be his before long.

When asked if he did not realize that he was working for naught, he seemed angered and said: "No. It is bound to be a success." His machine, or wheel, is a fine piece of workmanship, the very best timber and castings being used in its construction. A recent trial startled the witnesses when the wheel ran for thirteen minutes without stopping. Mr. Snowden says he will be ready to have his machine tested in a few days, and will send it to Washington for inspection. Mr. Snowden is 75 years of age, but is remarkably active for one of his years. He is a natural born engineer, having operated various kinds of machinery for forty years. Waco, an important town in Madison county, owes its name and establishment to him, he having started a carding loom there when the place was a briar-patch, 35 years ago.
